

IQARUS IMMERSIVE TRAINING CENTRE

ANY SCENARIO.
ANYWHERE IN THE WORLD.
DELIVERED IN ONE PLACE.

ABOUT US

Expeditionary Medical Training Excellence

At Iqarus, we are a global leader in the design, development, and delivery of bespoke, internationally accredited medical training programmes tailored to the unique demands of military personnel.

Our expertise supports armed forces, governments, IGOs, NGOs, and other organisations by equipping their teams with the critical skills and knowledge required to manage medical emergencies in challenging and hostile environments.

Our headquarters in Hereford, UK, houses the Immersive Training Centre (ITC), a cutting-edge facility where we create some of the most realistic and rigorous training scenarios available. Here, our expert trainers simulate the real-world challenges that military personnel are likely to encounter in the field, ensuring they are prepared for the complexities of combat medicine.

With over 20 years of experience, we have continuously evolved to meet the ever-changing needs of our clients. We offer 23 core courses, including Pre-Deployment Training, Mental Health Awareness, Tactical Combat Casualty Care (TCCC) and Medicine in Remote Areas (MIRA), alongside a wide range of tailored training modules. Our trainers are equipped to deploy globally, delivering the same high standards of training whether on-base, in remote locations, or in conflict zones. Most but not all of our training staff are ex-Military personnel.

Global Reach, Uncompromised Standards

We bring our training expertise directly to you, wherever your mission takes you. Iqarus Training and Development teams are regularly deployed worldwide, providing the best education in your home country or on the front lines. We also offer virtual training through our Virtual Instructor-Led Training (VILT) platform, designed to replicate the engagement and interaction of traditional classroom learning, ensuring that your teams receive comprehensive training regardless of location.

Certifications, Awards, and Accreditations

Iqarus Training and Development Division (IQTD) is accredited and endorsed by several leading clinical and academic qualification awarding bodies, ensuring our programmes meet the highest standards of excellence and are recognised globally.

Prepare your forces with Iqarus, where expeditionary training meets operational excellence.
